

Dear guests;

KAYSERİ METROPOLITAN MUNICIPALITY

It is proud to introduce a city that has hosted 6 thousand years of civilization. First of all, the best attitude you will see in our city is tolerance and harmony. With this harmony, we would like to introduce with the beauties of Kayseri and we are pleased to welcome you in our city. Kayseri is a city that cares about tourism. We have a good infrastructure in health tourism. Gevher Nesibe Madrasah, which is the first medical faculty in the world where the first medical education is given and in a sense well- known, was founded in our city 800 years ago.

In addition to Kayseri City Hospital, Erciyes University Medical Faculty Hospital, we have an advanced infrastructure health sector in every field with many hospitals. I would also like to express that I am very happy to introduce our historical and touristic values to you. You can find traces of different civilizations in every step you take in this city which has Erciyes Mountain, the only Turkey's international quality and service documented ski resort, Kültepe Kanesh and Koramaz Valley, which are in UNESCO World Heritage Temporary List, and 7.5 million years old fossils. Kayseri Cuisine, where you can feel unique tastes, is also waiting for you. We are happy to welcome you in Kayseri, the capital of many civilizations.

DR. MEMDUH BÜYÜKKILIÇ
MAYOR

HISTORICAL HOUSES

www.healthtourismkayseri.com

A woman with blonde hair, wearing a bright blue, sleeveless, flowing dress, stands in a field of tall, dry grass. She is looking down at her dress. In the background, there are rolling hills and several hot air balloons floating in the sky. The sky is a mix of soft pink, orange, and blue, suggesting a sunrise or sunset. The overall scene is peaceful and scenic.
